

XIA Configuration Server 2012

Pricing Guide

Overview

XIA Configuration is a powerful modular configuration management, auditing and documentation tool for complex IT networks.

To license XIA Configuration you must purchase the server component and then licenses for each item that you wish to document.

Pricing in this document is exclusive of VAT at 20% and is subject to change without notice.

For full details of the capabilities of each feature please see <http://www.centrel-solutions.com/XIAConfiguration/features.aspx>

For volume license prices please contact sales@centrel-solutions.com
