Farm65

A Citrix XenApp farm is a group of Citrix servers providing virtualized applications published to users. A farm can be managed as a unit, with all servers in a farm share a single data store.

General Settings

Farm Name	Farm65

Configuration Logging

Enabled	True
Allow changes to the farm when logging database is disconnected	True
Authentication Mode	Integrated
Connection String	Server=localhost\CITRIX_METAFRAME;Database=MF20;Connection Timeout=20;Packet Size=8192;Encrypt=true;Pooling=true;Min Pool Size=0;Max Pool Size=100;Connection Lifetime=0;Enlist=true;Connection Reset=true;
Connection Type	SQL Server
Require administrators to enter database credentials before clearing the log	False
Server Name	localhost\CITRIX_METAFRAME
Database	MF20

Administrators

Citrix administrators are users or groups that are assigned permissions to manage the farm. A Citrix administrator is configured as either Full, View Only or Custom.

Name	Privilege	Status
DEMO-XA65-01\Administrator	Custom	Enabled
DEMOXENAPP\administrator	Full	Enabled

DEMO-XA65-01\Administrator

Citrix administrators are users or groups that are assigned permissions to manage the farm. A Citrix administrator is configured as either Full, View Only or Custom.

DEMO-XA65-01\Administrator

Enabled	True
Administrator Type	Custom
Unique Identifier	10f4-0124-0000022b

Privileges

Folder	Task
Farm	Log on to Management console
Farm	View administrators
Farm	View load balancing policies
Applications	View session management Send messages Log off users Reset sessions
Servers	View session management Log off users

DEMOXENAPP\administrator

Citrix administrators are users or groups that are assigned permissions to manage the farm. A Citrix administrator is configured as either Full, View Only or Custom.

DEMOXENAPP\administrator

Enabled	True
Administrator Type	Full
Unique Identifier	10f4-0124-000000f9

CENTREL Solutions Ltd.

Applications

Applications are the applications, content and server desktops that have been virtualized and made available (published) to users.

Name	Application Type	Status	Description
Corporate Intranet	Content	Enabled	Corporate Intranet link
Firefox	Streamed to client	Enabled	Firefox web browser
Microsoft Access	Installed application	Enabled	Microsoft Access - database application
Microsoft Excel	Installed application	Enabled	Microsoft Excel - spreadsheet application
Microsoft PowerPoint	Installed application	Enabled	Microsoft PowerPoint presentation software
Microsoft Word	Installed application	Enabled	Microsoft Word - Word processor
Skype	Streamed to client	Enabled	Firefox web browser

Corporate Intranet

Applications are the applications, content and server desktops that have been virtualized and made available (published) to users.

General Settings	
Application Browser Name	Corporate Intranet
Disable application	False
Description	Corporate Intranet link

Access Control	
Allow connections made through Access Gateway Advanced Edition	False
Allow all other connections	False

Location	
Content address	http://intranet

Shortcut Presentation	
Client application folder	Web Links
Add shortcut to the client's desktop	True
Add to the client's Start menu	True
Start menu folder	Web Links

Users	
Allow anonymous users	False
Users	DEMOXENAPP\Domain Users

Firefox

Applications are the applications, content and server desktops that have been virtualized and made available (published) to users.

General Settings	
Application Browser Name	Firefox
Disable application	False
Description	Firefox web browser

Access Control	
Allow connections made through Access Gateway Advanced Edition	False
Allow all other connections	False

Streaming	
Profile address	\\demo-xa-dc01\PublishedApplications\FireFox\FireFox.profile
Application to launch	Mozilla Firefox
Extra command line parameters	
Run application as a least-privileged user account	False
Enable offline access	True
Pre-cache application at login	True

Shortcut Presentation	
Client application folder	Web Browsers
Add shortcut to the client's desktop	True
Add to the client's Start menu	True
Start menu folder	Web Browsers

Users	
Allow anonymous users	False
Users	DEMOXENAPP\Citrix Corporate Users

CENTREL Solutions Ltd.

Microsoft Access

Applications are the applications, content and server desktops that have been virtualized and made available (published) to users.

General Settings

Application Browser Name	Microsoft Access
Disable application	False
Description	Microsoft Access - database application

Access Control

Allow connections made through Access Gateway Advanced Edition	True
Access session conditions enabled	False
Allow all other connections	True

Appearance

Window Size	1024x768
Maximum color quality	Better Appearance (32-bit)
Hide application title bar	False
Maximize application at startup	False

Client Options

Enable legacy audio	True
Audio is minimum requirement	False
Enable SSL and TLS protocols	False
Encryption Level	Basic
Start this application without waiting for printers to be created	True

Location

Command line	"C:\Program Files\Microsoft Office\Office15\MSACCESS.EXE"
Working directory	C:\Program Files\Microsoft Office\Office15

Limits

Instance Limit	Unlimited
Allow only one instance of application for each user	False
Application importance	Normal

Servers

Server Names	DEMO-XA65-01 DEMO-XA65-02

Worker Group Names	

▣ Shortcut Presentation

Client application folder	Microsoft Office
Add shortcut to the client's desktop	True
Add to the client's Start menu	True
Start menu folder	Microsoft Office

⚇ Users

Allow anonymous users	False
Users	DEMOXENAPP\Citrix Corporate Users

▣ Shortcut Presentation

Client application folder	Microsoft Office

Microsoft Excel

Applications are the applications, content and server desktops that have been virtualized and made available (published) to users.

Load Evaluators

A load evaluator is used to evaluate how much load is currently placed on a server using one or more rules such as memory usage and CPU utilization.

Name	Description
Advanced	Use the Advanced Load Evaluator to limit memory usage, CPU utilization, and page swaps on a server for load management.
Default	The Default Load Evaluator uses the user session count for its criteria.

CENTREL Solutions Ltd.

Advanced

A load evaluator is used to evaluate how much load is currently placed on a server using one or more rules such as memory usage and CPU utilization.

Advanced	
Description	Use the Advanced Load Evaluator to limit memory usage, CPU utilization, and page swaps on a server for load management.
Load Evaluator ID	10f4-0005-000000e7

Application User Load	
Enabled	False

Context Switches	
Enabled	False

CPU Utilization	
Enabled	True
Report no load when the processor utilization percentage is less than or equal to this value.	10
Report full load when the processor utilization percentage is greater than this value.	90

Disk Data I/O	
Enabled	False

Disk Operations	
Enabled	False

IP Ranges	
Enabled	False

Load Throttling	
Enabled	True
Impact of logons on load	High (Default)

Memory Usage	
Enabled	True
Report no load when the memory usage is less than or equal to this value	10
Report full load when the memory usage is greater than this value	90

CENTREL Solutions Ltd.

Page Faults

Enabled	False

Page Swaps

Enabled	True
Report no load when the number of page swaps per second is less than or equal to this value.	0
Report full load when the number of page swaps per second is greater than this value.	100

Scheduling

Enabled	False

Server User Load

Enabled	False
